THE OTHER IS FORMALLY WITHDRAWN.

MR. CLEWS HAD RENEWED HOPES OF SAVING THE METROPOLITAN.

The plan for the buying and rebuilding of the Metropolitan Opera House which has been chiefly promoted by George Henry Warren has not received afficient encouragement to warrant the committee charge of it in making any further efforts to carry t out. Yesterday was decided upon as the day who the committee would declare that it had succeeded of failed, and late in the afternoon the committee sent he following communication to each of the subscribers

This committee regrets extremely that it has been impossible to obtain the \$1,000,000 contemplated under the with a previous resolution passed by them, they hereby notify you of the failure of the plan.

The committee has been able to secure for its sub-scribers, however, owing to the courtesy of the stock-holders' committee, composed of Messrs. Henry Clews, L. Pierpont. Morgan and Charles Lanier, the option nder the plan of that committee.

You are therefore requested to immediately notify Mr. Henry Clews, chairman, at No. 15 Broad-st., whether you desire a box or any part of a box under his plun. It is the sincere wish of the members of this com-mittee that all those stockholders who desire the rebuild-ing of the Metropolitan Opera House should immediately co-operate with Messrs, Henry Clews, J. Your attention is again called to the fact that the Metropolitan Opera House property is advertised to b sold on February 14 next, and you are earnestly re-quested to make no delay in immediately communicaquested to make no delay in immediately communicating with Mr. Henry Clews, chairman, R. GEORGE HENRY WARREN.

New-York, February 6, 1893, at 5 p. m.

This withdrawal of Mr. Warren's committee from the field of possible purchasers of the Metropolitan Opera House property leaves it the more open for operations of the other committee appointed by stockholders a week ago, which consists of Henry Clews, J. Fierpont Morgan and Charles Lanter. This committee met at Mr. Clews's office yesterday and re eived formal notice of the withdrawal of the other plan. In regard to the action of Mr. Warren's com e and the prospects of the success of his own News said: "The scheme of the Warren com Mr. Clews said: would contribute \$50,000 each, to buy in the property at the foreclosure sale with the view of reorganizing the Opera House Company. This plan obtained thir een signatures, but, as they seem to be unabl obtain any more, they have concluded to abandon he'r scheme in favor of mine, and recommend the dirteen subscribers to come into my arrangement have given the committee the option on thirt oxes at the opera house, which they can provide with takers. This will insure the success of my not to exceed \$10,000 each by way of assessment. Each of these thirty-four will be entitled to a parterre box Thus, you see, my arrangement is the best, because is more generous and calls for less money.

Mr. Clews also said that several of the subscribers o Mr. Warren's plan had already signified their willingness to subscribe to his instead. In this way willingness to subscribe to his instead. In this way there is an increased chance of the success of Mr. Clews's plan and the preservation of the opera house for musical purposes. Indeed, this seems to be practically assured unless some person or combination entirely outside the present corporation wants the house or the land as it stands or for some other purpose and is willing to pay more for it than those who are anxious to perpetuate grand opera. Little has been heard of any such purpose of late, but some other bidder may appear at the sale and nothing will be positively assured till that has taken place. A week from to-day the opera house will be lost or won.

night and decided to transfer their building, in Statyseventh-st., near Third ave., to Jacob Ruppert for \$750,000. This action was necessary, because other wise the society would be obliged to become heavily involved in debt to pay the interest on the two mort gages, one of which was held by the Equitable Life Insurance Society and the other by Mr. Ruppert. The society at one time had over 1,000 members, but internal dissensions caused about one-half of the members to resign. The remaining members soon dicovered that they would be unable to pay the interest on the mortgages, so it was finally decided at the meet-ing last wight to transfer the property to Mr. Rappert, the holder of the second mortgage. He expected this action, and bought up the mortgage held by the

Equitable Life Insurance Company.

All the members of the Central Turn Verein are pleased with what has been done, because Mr. Ruppert will present them with all the furniture and appliances of the gymnasium and the school, together with the library. He will also give them the use of the gymnasium and schoolrooms for six years, at the nominal rent of \$10 a month. At his pleasure, how-ever, by giving the society a month's notice, he can compel them to vacate the build ng.
